Prohibited & Restricted Cargo List based on IMDG Code 42-24 (Dangerous Goods / Hazardous Material)

Valid as from 11th FEB. 2025

X : Prohibited / R : Restricted

			: Revised or added UNNO : IMDG CODE 42th, NEW UNNO
	VAR	P/R	Comments
			DG shipments loaded onto HMM operating vessels in all of Asian ports & Australian ports must be provided
All DG	HMM DG Policy – Providing DG Approval Number	-	DG approval number when you submit final DG booking list to our Local offices.
			All DG shipments without DG Approval number are strictly prohibited to load onto HMM vessels.
	D. 1774 A. W. DO. A. A. GUTD		Please make sure the DG approval No. to be included in your booking forecast / CLL for all DG booking.
-	Prohibit hand writting DG placard on CNTR	X	W 1048
-	STABILIZED substances with SP386	R	- Need SAPT under IMDG Code 7.3.7.2.3
			- AMMONIUM HYPOCHLORITE
			- AMMONIUM NITRATE liable to self-heating sufficient to initiate a decomposition
			- AMMONIUM NITRITES and mixtures of an inorganic nitrite with an ammonium salt
			- CHLORIC ACID, AQUEOUS SOLUTION with more than 10% chloric acid
			- ETHYL NITRITE pure
			- HYDROCYANIC ACID, AQUEOUS SOLUTION (HYDROGEN CYANIDE, AQUEOUS SOLUTION) with more than 20% hydrogen cyanide
-	Prohibit substances of IMDG Code SP900	Х	- HYDROGEN CHLORIDE, REFRIGERATED LIQUID
			- HYDROGEN CYANIDE SOLUTION, IN ALCOHOL with more than 45% hydrogen cyanide
			- MERCURY OXYCYANIDE pure
			- METHYL NITRITE
			- PERCHLORIC ACID with more than 72% acid, by mass
			- SILVER PICRATE, dry or wetted with less than 30% water by mass
		<u> </u>	- ZINC AMMONIUM NITRITE
·			1. Prohibited : Class 1 / 2.1 / 3(F/P<+23°c) / 6.2 / 7
		1	2. Restricted : Class 2.2 / 2.3 / 3(F/P ≥ +23°c) / 4.1 / 4.2 / 4.3 / 5.1 / 5.2 / 6.1 / 8 / 9
		1	- Acceptable subject to quality control purpose only
	DG in Live Refrigerated(Reefer) Containers	R	- If sub-risk is above prohibited class, it is prohibited to load in live RF CNTR.
-	55 255 Nongolatoq Notice / Softaniers	"	- All temp. controlled DG in live RF CNTR is prohibited.
		1	- The temp. of RF CNTR contained Class 3 or other classes with sub-risk 3 shall be set
			at least 10°C below than flashpoint.
			- Acceptable class 9 except UN3314 & UN2211(Prohibited in reefer).
-	CARBON (Including non-activated / Carbon Black)	х	 - All including Non-DG are prohibited. - Acceptable HMM booking on HMM Vessel only, If carbon black manufacturer is <u>OCI (from KOREA).</u>
	ACTIVATED CARBON / CHARCOAL		Orion Engineered Carbons, Phillips Carbon Black (from INDIA)
-	Calcium Hypochlorite	Х	- All DGs that Calcium Hypochlorite is described in proper shipping name are prohibited.
-	Divinyl benzene	Х	- All DGs that recognized chemical or biological name is Calcium Hypochlorite are prohibited. - All DGs that Divinyl benzene is described in technical name are prohibited.
-	Ammonium nitrate	X	- All DGs that Divinyl benzene is described in technical name are prohibited. - All DGs that Ammonium nitrate is described in technical name are prohibited.
	Cyanamide	X	- All DGs that Arimonium mutate is described in technical name are prohibited. - All DGs that Cyanamide is described in technical name are prohibited.
	Thiourea	X	- All DGs that Thiourea is described in technical name are prohibited. Synonyms "THIOCARBAMIDE"
			- Tank Container inspection certificate is required
-	Tank Container	R	- Any Tank Container read or monitoring cannot be accepted.
	Packaing Certificate	R	- If DG Corresponds to P602, Provide packaging Certificate(UN Packaging)
-	DG with SOC Reefer / Heating Tank Container	R	- Required to provide manual book, spare part & technician (if necessary) by shipper
		I.	- Required to provide mandarbook, spare part a technician (in necessary) by simpler
-	Temperature controlled DG (Organic peroxide / Self-reactive)	X	- Prohibit temperature controlled DG.
	-		
-	Temperature controlled DG (Organic peroxide / Self-reactive)	Х	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2).
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air	X X	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	Prohibit temperature controlled DG. Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable badding in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed. 6. The container and packages therein were properly marked, labeled and placard.
	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed. 6. The container and packages therein were properly marked, labeled and placard. 7. The cargo operator should arrange and carry out survey for restricted DGs on its account
	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. 	s from 11	th FEB. 2025			X: Prohibited / R: Restricted
CLASS	UN No.	Proper Shipping Name	НММ	Partner	Comments
1	ALL	Explosives	R	Х	- Exception case 1) Permit to manufacturer Poongsan, Hanwha 1.4S, O/B Korea Only 2) Subject to HMM Fleets/HMM Booking
	ALL	Flammable gases	Х	Х	- Prohibit all Gases having flammable nature(Class 2.1 and sub risk 2.1) in Live Reefer Container
					- Prohibit "Plastic lighters with gas inlet valve" (Refillable gas lighters are prohibited)
2.1	1057	LIGHTERS containing flammable gas.	R	R	- Prohibit all Gas lighters originated from P.R.China irrespective of type. (Hong Kong is not included.) - Prohibit the cargo which will be Transit/Transshipment at "Middle East ports"
					From June to Sept. ("Suez canal" is not include "Middle East")
	1966	HYDROGEN, REFRIGERATED LIQUID	X	X	The first and DO
2.2	3553 2455	DISILANE METHYL NITRITE	X	X	- The 42th new DG
2.3	2186	HYDROGEN CHLORIDE, REFRIGERATED LIQUID	Х	Х	
	ALL	Flammable liquids	Х	Х	-Prohibit all $\ PG\ I$, $\ II\ $ (when Flash point is below 23 degree) in Live Reefer Container
	ALL	Flammable liquids	X	X	- If vessel arrives or transits "Singapore", Subsidiary risk of IMO Class 6.1 carried in isotanks are prohibited
	1131	CARBON DISULPHIDE	R	R	Must be separated longitudinally by an intervening complete compartment or hold from class 1. Will not accept "ETHYL NITRITE pure" in accordance with SP900.
	1194	ETHYL NITRITE SOLUTION	R	R	Need special authorization granted by the competent authority of the country concerned.
	1204	NITROGLYCERIN SOLUTION IN ALCOHOL with not more than 1% nitroglycerin	х	Х	
	1280	PROPYLENE OXIDE ISOCYANATES, FLAMMABLE, TOXIC, N.O.S. or	R	R	- Tank container is prohibited if vessel arrives or transits "Singapore".
3	2478	ISOCYANATE SOLUTION, FLAMMABLE, TOXIC, N.O.S.			- The maximum weight permitted for UN2478 with a flash point below 23'C is 0.5 ton when calling "SGSIN".
	3064	NITROGLYCERIN SOLUTION IN ALCOHOL with more than 1% but not more than 5% troglycerin	×	x	
	3256	ELEVATED TEMPERATURE LIQUID, FLAMMABLE, N.O.S. with flashpoint above 60 °C, at or above its flashpoint	^	^	
	3343	NITROGLYCERIN MIXTURE, DESENSITIZED, LIQUID, FLAMMABLE, N.O.S. with not more than 30% nitroglycerin,by mass		-	Need Certificate from Competent Authority and UN Manual test report (SP278, SP288)
	3357	NITROGLYCERIN MIXTURE, DESENSITIZED, LIQUID, N.O.S with not more than 30% nitroglycerin, by mass	R	R	- Need special authorization granted by the competent authority of the country concerned.(P099)
	3379	DESENSITIZED EXPLOSIVE, LIQUID, N.O.S.	х	х	
	3555	TRIFLUOROMETHYL TETRAZOLESODIUM SALT IN ACETONE with not less than 68% acetone, by mass	Х	Х	- The 42th new DG
	ALL	Flammable solids, self-reactive substances, solid desensitized	х	х	- Prohibit all self-reactive substances with subsidiary explosive risks, Check SP181 for UNNO 3221, 3222
		explosives and polymerizing substances			- 'The transport of this substance shall be prohibited except with the approval of the competent authorities of
	3097	FLAMMABLE SOLID, OXIDIZING, N.O.S.	R	R	the port State of departure, port State of arrival and flag State(SP976)
	3231	SELF-REACTIVE LIQUID TYPE B, TEMPERATURE CONTROLLED (All)	-		
	3232 3233	SELF-REACTIVE SOLID TYPE B, TEMPERATURE CONTROLLED (AII) SELF-REACTIVE LIQUID TYPE C, TEMPERATURE CONTROLLED (AII)	-		
	3234	SELF-REACTIVE SOLID TYPE C, TEMPERATURE CONTROLLED (AII)			
	3235	SELF-REACTIVE LIQUID TYPE D, TEMPERATURE CONTROLLED (AII)] x	×	- Prohibit all temperatrue controlled DG
	3236	SELF-REACTIVE SOLID TYPE D, TEMPERATURE CONTROLLED (AII)	×		- Prohibit all temperatrue controlled DG
	3237 3238	SELF-REACTIVE LIQUID TYPE E, TEMPERATURE CONTROLLED (All) SELF-REACTIVE SOLID TYPE E, TEMPERATURE CONTROLLED (All)			
	3239	SELF-REACTIVE LIQUID TYPE F, TEMPERATURE CONTROLLED (All)	-		
	3240	SELF-REACTIVE SOLID TYPE F, TEMPERATURE CONTROLLED (AII)	1		
4.1					- Submission of MSDS/ Packing Certification/ Stuffing photo required
			R		- Letter of guarantee as follows is required: "During transport, if jettison is necessary due to any incident which may affect the performance and
	3242	AZODICARBONAMIDE		×	safety of transportation, shipper wholly consent to master's disposition. Shipper also responsible for all
		(Self-Reactive Substances/Blowing agent)			cost associated with rescue of, or disposal of cargo and container is such is necessary"
					- Other warning for transport , if any.
	3251	ISOSORBIDE-5-MONONITRATE	х	Х	- Acceptable HMM Booking on HMM Vessel only
	3319	NITROGLYCERIN MIXTURE, DESENSITIZED, SOLID, N.O.S	R	R	Need special authorization granted by the competent authority of the country concerned.(P099)
	3380	DESENSITIZED EXPLOSIVE, SOLID, N.O.S.	Х	Х	
	3532	POLYMERIZING SUBSTANCE, LIQUID, STABILIZED, N.O.S. POLYMERIZING SUBSTANCE, SOLID, TEMPERATURE CONTROLLED,	R	R	- Prohibit technical name "DIVINYLBENZENE" ONLY
	3533	N.O.S. POLYMERIZING SUBSTANCE, SOLID, TEMPERATURE CONTROLLED, NO.S.	×	x	
	3534	N.O.S.			
	1361	CARBON animal or vegetable origin (Including Charcoal, non-activated / Carbon Black)	_ x	x	- Prohibit Non-DG is also, Wooden charcoal, Bamboo charcoal, Coconut sell charcoal, Carbon briquettes, Carbon shell, Magnesia carbon brick, Coal vegetable packages; Synonym of CHARCOAL Carbon Block is paceaptible, MMA backing as MMA located and who provided the provided to CCL (from KOBEA).
	1362	CARBON, ACTIVATED (Including Charcoal, Activated)	1		- Carbon Black is acceptable HMM booking on HMM Vessel only whne manufacturer is OCI (from KOREA), Orion Engineered Carbons, Phillips Carbon Black (from INDIA)
	1364	COTTON WASTE, OILY	1		
	1365 1369	P-NITROSODIMETHYLANILINE	_ x	х	
	1369	FIBRES ANIMAL or FIBRES VEGETABLE burnt, wet or damp	1		
	1374	FISHMEAL, UNSTABILIZED or FISHSCRAP, UNSTABILIZED	R	R	Acceptable subject to proper documents including weather certificate.
