Prohibited & Restricted Cargo List based on IMDG Code 42-24 (Dangerous Goods / Hazardous Material)

Valid as from 17th, July. 2025

X : Prohibited / R : Restricted

			: Revised or added UNNO : IMDG CODE 42th, NEW UNNO
	VAR	P/R	Comments
			DG shipments loaded onto HMM operating vessels in all of Asian ports & Australian ports must be provided
All DG	HMM DG Policy – Providing DG Approval Number	-	DG approval number when you submit final DG booking list to our Local offices. All DG shipments without DG Approval number are strictly prohibited to load onto HMM vessels.
			Please make sure the DG approval No. to be included in your booking forecast / CLL for all DG booking.
-	Prohibit hand writting DG placard on CNTR	Х	Trade that do all are an approved the to a committee of poor and an approved the province of t
-	STABILIZED substances with SP386	R	- Need SAPT under IMDG Code 7.3.7.2.3
			- AMMONIUM HYPOCHLORITE
			- AMMONIUM NITRATE liable to self-heating sufficient to initiate a decomposition
			- AMMONIUM NITRITES and mixtures of an inorganic nitrite with an ammonium salt
			- CHLORIC ACID, AQUEOUS SOLUTION with more than 10% chloric acid
			- ETHYL NITRITE pure
			- HYDROCYANIC ACID, AQUEOUS SOLUTION (HYDROGEN CYANIDE, AQUEOUS SOLUTION) with more than 20% hydrogen cyanide
-	Prohibit substances of IMDG Code SP900	Х	- HYDROGEN CHLORIDE, REFRIGERATED LIQUID
			- HYDROGEN CYANIDE SOLUTION, IN ALCOHOL with more than 45% hydrogen cyanide
			- MERCURY OXYCYANIDE pure
			- METHYL NITRITE
			- PERCHLORIC ACID with more than 72% acid, by mass
			- SILVER PICRATE, dry or wetted with less than 30% water by mass - ZINC AMMONIUM NITRITE
			1. Prohibited : Class 1 / 2.1 / 3(F/P<+23°c) / 6.2 / 7/ RFDRY(Non-operated Reefer Container)
			2. Restricted : Class 2.2/2.3/3(F/P ≥ +23°c) / 4.1/4.2/4.3/5.1/5.2/6.1/8/9
			- Acceptable subject to quality control purpose only
_	DG in Live Refrigerated(Reefer) Containers	R	- If sub-risk is above prohibited class, it is prohibited to load in live RF CNTR.
_	Do in Live Reingerateu(Reeter) Containers	K	- All temp. controlled DG in live RF CNTR is prohibited.
			- The temp. of RF CNTR contained Class 3 or other classes with sub-risk 3 shall be set
			at least 10°C below than flashpoint.
	CARRON (Institution and patients) (Co. 1 to 10 t		- Acceptable class 9 except UN3314 & UN2211(Prohibited in reefer) All including Non-DG are prohibited.
-	CARBON (Including non-activated / Carbon Black) ACTIVATED CARBON / CHARCOAL	х	-Acceptable HMM booking on HMM Vessel only, If carbon black manufacturer is <u>QCI (from KOREA)</u> . <u>Orion Engineered Carbons, Phillips Carbon Black (from INDIA)</u>
	Calcium Hypochlorite	Х	- All DGs that Calcium Hypochlorite is described in proper shipping name are prohibited.
-	··		- All DGs that recognized chemical or biological name is Calcium Hypochlorite are prohibited.
-	Divinyl benzene(Diethenylbenzene, Vinylstyrene)	X	- All DGs that Divinyl benzene is described in technical name are prohibited.
-	Ammonium nitrate Cyanamide	X	- All DGs that Ammonium nitrate is described in technical name are prohibited. - All DGs that Cyanamide is described in technical name are prohibited.
	Thiourea	X	- All DGs that Thiourea is described in technical name are prohibited. Synonyms "THIOCARBAMIDE"
			- Tank Container inspection certificate is required
-	Tank Container	R	- Any Tank Container read or monitoring cannot be accepted.
	Packaing Certificate	R	- If DG Corresponds to P602, Provide packaging Certificate(UN Packaging)
	DG with SOC Reefer / Heating Tank Container		Described to provide manual book appropriate 8 technician (if personne) by abinous
-	-	R	- Required to provide manual book, spare part & technician (if necessary) by shipper
-	Temperature controlled DG (Organic peroxide / Self-reactive)	Х	- Prohibit temperature controlled DG.
	-		- Prohibit temperature controlled DG Prohibited
-	Temperature controlled DG (Organic peroxide / Self-reactive)	Х	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2).
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air	X X	- Prohibit temperature controlled DG Prohibited
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HIMM Legal affairs, insurance dept and ship's owner.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers(BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed. 6. The container and packages therein were properly marked, labeled and placard.
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. Vanning survey mentioned below may be done by competent marine surveyor as the third party in order to certify following points. 1. Below mentioned, vanning survey is required in case SOL requests it. 2. All packages have been properly packed, securely blocked and braced to prevent the packages from changing position, falling to the floor, or sliding into each other under shocks normally incident. 3. The container is clean, dry and apparently fit to receive the goods. 4. No incompatible goods has been packed into the container. 5. All packages have been externally inspected for damage, and only sound packages have been packed. 6. The container and packages therein were properly marked, labeled and placard. 7. The cargo operator should arrange and carry out survey for restricted DGs on its account
-	Temperature controlled DG (Organic peroxide / Self-reactive) All substances with subsidiary explosive risks and which ignite on exposure to air Bulk Containers Military equipment(use) classified as DG	X X R	- Prohibit temperature controlled DG Prohibited 1. Bulk containers are prohibited except closed bulk containers (BK2). 2. Acceptable loading in SOC(Shipper Own Container) BK2 container only per IMDG Code 6.9.3 - Acceptable subject to the approval of HMM Legal affairs, insurance dept and ship's owner. 0 LITHIUM METAL BATTERIES (Including Lithium Alloy Batteries)		Х	- The 42th NEW DG
LITHIUM METAL BATTERIES (Including Lithium Alloy Batteries)			- All batteries made by Aricell (manufacturer) is prohibited
LITTIUM METAL DATTERIES (INCluding Lithium Alloy Batteries)	R	R	- Acceptable only in Reefer Containe r with Vent Close / On deck only
	IX.	Γ.	- All used & Waste Battery(Including Defective Battery) Prohibited, only New Battery allowed
			- Required such condition for Non-DG also
			- All batteries made by Aricell (manufacturer) is prohibited / On deck only
LITHIUM METAL BATTERIES CONTAINED IN EQUIPMENT or LITHIUM 1 METAL BATTERIES PACKED WITH EQUIPMENT	R	R	- All used & Waste Battery(Including Defective Battery) Prohibited, only New Battery allowed
(Including Lithium Alloy Batteries)	1	l	- Required such condition for Non-DG also
			- Prohibit all of Li-ion Batteries (except outbound from KOREA /JAPAN)
			For KOR/JPN outbound,
			1) All Used / Waste / Defective battery prohibited, only New battery allowed
			2) Specific manufacturer & made in KOR / JPN
	Ī		- KOR : LG / SAMSUNG / SK
			- JPN : Panasonic / Blue Energy(GS Yuasa) / Maxell / Fuji Denki Kagaku(FDK) / Toshiba
LITHIUM ION BATTERIES (Including Lithium Ion Polymer Batteries)			3) Acceptable only in Reefer Container with Vent Close
		х	4) LOI submission required written by manufacturer & F/Forwarder
	R		5) On-deck Only / HMM Booking on HMM Vessel Only
	K		Non-DG per IMDG code SP188 is allowed without above requirments but must be submitted
			' <u>On-Deck Special Stowage Request</u> ' case by cases
			- Special exception cases outbound from CHINA for LG & SK only
			All Used / Waste / Defective battery prohibited, only New battery allowed
			2) Specific manufacturer in below only
			- <u>LG Energy Solution</u> from Nanjing / <u>SK On (Eve energy joint venture)</u> from HKG&DCB to KOR
			Acceptable only in Reefer Container with Vent Close
			· · ·
			4) LOI submission required written by manufacturer & F/Forwarder
			5) On-deck Only / HMM Booking on HMM Vessel Only
			- Prohibit all of Li-ion Batteries (except outbound from KOREA /JAPAN)
			For KOR/JPN/ outbound,
			All Used / Waste / Defective battery prohibited, only New battery allowed
			2) <u>Specific manufacturer & made in KOR / JPN only allowed</u>
			- KOR : LG / SAMSUNG / SK
			- JPN : Panasonic / Blue Energy(GS Yuasa) / Maxell / Fuji Denki Kagaku(FDK) / Toshiba
			3) LOI submission required written by manufacturer & F/Forwarder
			4) On-deck Only / HMM Booking on HMM Vessel Only
LITHIUM ION BATTERIES CONTAINED IN EQUIPMENT or			5) Battery in equipments must be isolated with non conductive material to prevent accidental
	R	Х	activation and short-circuit
1 LITHIUM ION BATTERIES PACKED WITH EQUIPMENT	I		Non-DG per IMDG code SP188 is allowed without above requirments but must be submitted
		Ī	* Non-DG per IMDG code SP188 is allowed without above requirments but must be submitted 'On-Deck Special Stowage Request' case by cases

1			

					- Prohibit all kind of Vehicle / Equipment with Li-ion Batteries (except outbound from KOR /JPN)
					For KOR/JPN/ outbound,
					All Vehicles with Used / Waste / Defective battery prohibited, only New battery allowed
					Specific manufacturer & made in KOR / JPN only allowed
	3556	VEHICLE, LITHIUM ION BATTERY POWERED			- KOR : LG / SAMSUNG / SK
	3557	VEHICLE, LIHTIUM METAL BATTERY POWERED	R	Х	- JPN : Panasonic / Blue Energy(GS Yuasa) / Maxell / Fuji Denki Kagaku(FDK) / Toshiba
					3) LOI submission required written by maker(including SOC* data) & F/Forwarder
					(*) State Of Charge : Recommended charge rate(%) by maker for safe sea transportation
					4) On-deck Only / <u>HMM Booking + HMM Vessel Only</u> (<u>Allowed max 20TEU/Vessel</u>)
					5) Battery in equipments must be isolated with non-conductive material to prevent accidental
					activation and short-circuit
	3536	LITHIUM BATTERIES INSTALLED IN CARGO TRANSPORT UNIT	х	Х	- Including LITHIUM BATTERY ENERGY STORAGE CABINETS
	3530	lithium ion batteries or lithium metal batteries	^	^	-
	3558	VEHICLE, SODIUM ION BATTERY POWERED	R	R	- All Vehicles with Used / Waste / Defective battery prohibited, only New battery allowed - On-deck only
ı					- Shall meet Special provision 962 of IMDG code
	3166	VEHICLE, FLAMMABLE GAS POWERED or	R	R	For used vehicle, required photo of stuffing / battery short-circuit / vehicle dashboard to check fuel
	0100	VEHICLE, FLAMMABLE LIQUID POWERED		'`	
\dashv			ļ		- Prohibit Hybrid Veihicles with lithium ion/polymer batteries
	2071	AMMONIUM NITRATE BASED FERTILIZER	Х	Х	
					- Open Top, Vent Container only
					- If loaded in DRY CNTR, Letter of guarantee are required.
					All shipper indicate "All the cargo is hermetically-sealed packing material with inspection company's
					certificate of 100% no leaking, Shipper also responsible for all cost associated with rescue of, or
	2211	POLYMERIC BEADS, EXPANDABLE evolving flammable vapour	R	R	disposal of cargo and container is such is necessary™ in LOI.
		(Including Polystyrene Beans, Expandable/Polymeric Beads, Expandable)			- Warning sign "CAUTION - MAY CONTAIN FLAMABLE VAPOUR" to be attached on container door
					and meet SP965
					- Inspection certificate of the package, MSDS required regardless CNTR type
					- On deck only
	2212	BLUE OR BROWN ASBESTOS, AMPHIBOLE (amosite, tremolite, actinolite, anthophyllite, Crociolite)	х	х	
Ī	2216	FISHMEAL (FISHSCRAP), STABILIZED Anti-oxidant treated. Moisture content greater than 5% but not exceeding 12%, by mass.	R	R	- Acceptable subject to proper fishmeal certificate which is complied with IMDG code.
		Fat content not more than 15% POLYCHLORINATED BIPHENYLS, LIQUID			
I	2315		X	X	
l	2590	ASBESTOS, CHRYSOTILE	X	X	2
I	2969	CASTOR BEANS or CASTOR MEAL or CASTOR POMACE or CASTOR FLAKE	R	R	- Cannot accept SP141, only declared as DG
					- Required MSDS submission
	3077	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S.	R	R	- Calcium hypochlorite and Synonym of Calcium Hypochlorite prohibited
					- Prohibit Technical name "Thiourea"
					- If below 5kg(net weight), it can be transported as NON-DG(Shipper Options)
9					- Prohibit technical name "DIVINYLBENZENE" ONLY.
<i>"</i>	3082	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.	R	R	- Required MSDS submission
					- If below 5L(net weight), it can be transported as NON-DG(Shipper Options)
l		POLYHALOGENATED BIPHENYLS, LIQUID or HALOGENATED			· · · · · · · · · · · · · · · · · · ·
	3151	MONOMETHYL-DIPHENYLMETHANES, LIQUID or POLYHALOGENATED TERPHENYLS, LIQUID			
l		POLYHALOGENATED BIPHENYLS, SOLID or HALOGENATED	1		
	3152	MONOMETHYL-DIPHENYLMETHANES, SOLID or POLYHALOGENATED TERPHENYLS. SOLID	Х	Х	
ŀ		ELEVATED TEMPERATURE LIQUID, N.O.S. at or above 100°C and below	-		
	3257	its flashpoint (including molten metals, molten salts, etc.)			
l	3258	ELEVATED TEMPERATURE SOLID, N.O.S. at or above 240 °C			
l					- Open Top, Vent Container only
					- Warning sign "CAUTION - MAY CONTAIN FLAMABLE VAPOUR" to be attached on container door
	3314	PLASTICS MOULDING COMPOUND in dough, sheet or extruded rope form, evolving flammable vapour	R	R	
					and meet SP965
					- On deck only
	3359	FUMIGATED CARGO TRANSPORT UNIT	R	R	- Equipment for detecting the fumigant gases other than METHYL BROMIDE and
			1		PHOSPHIN should be supplied by the cargo operator with its instruction
	3432	POLYCHLORINATED BIPHENYLS, SOLID	Х	Х	
					All Used / Waste / Defective Battery <u>*</u> "New battery" is acceptable without followings:
					- Need packing to prevent leakage caused container corrosion and damage.
	3496	BATTERIES, NICKEL-METAL HYDRIDE	R	R	- Need LOI about M&R cost recovery.
					- SOC container is not required upper regulations. SOC container is acceptable.
					- Please refer to 'Haz Waste' section.
1	3509	PACKAGING DISCARDED, EMPTY, UNCLEANED	Х	Х
