

Dangerous Goods Placarding of cargo transport unit

DG Center/HQ SEL

1. General provision

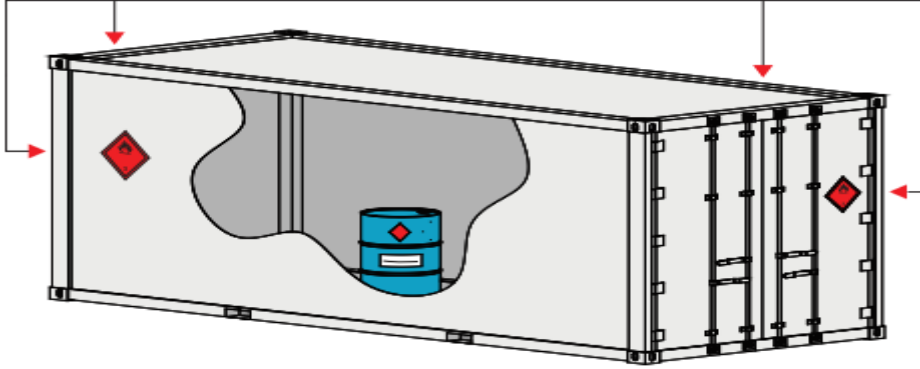

- **Placard and mark and signs** shall be affixed to the exterior surfaces of a cargo transport unit to provide a warning that the contents of the units are dangerous goods and present hazards.
- The methods of placarding and marking shall be such that this information will still be identifiable on cargo transport units surviving **at least three month's** immersion in the sea.
- All placards, marks and signs **shall be removed** or masked from cargo transport units as soon as both the dangerous goods or their residues are discharged.
